

Ten Reasons People Choose LLumar

1. The only manufacturer that makes all of its film components in-house... that ensures the best quality control and the fastest response.
2. The largest manufacturing facility in the industry with over 650,000 square feet which is mostly a clean room atmosphere and is ISO 9001 certified.
3. The only manufacturer that uses an ultraviolet absorbing film layer (as opposed to just adhesive additives) in all its automotive and flatglass solar films.
4. Scratch-resistant film coatings with an unparalleled track record in the industry.
5. Our CDF adhesive system has never failed in over 20 years of continuous use.
6. The widest variety of products and widths...over 300.
7. The most comprehensive and reliable warranty programs in the film industry.
8. An unprecedented advertising and promotion program to increase product and brand recognition in the marketplace.
9. A sales and marketing staff that can help you sell, train, advertise, secure leads for you, and help you become more successful.
10. CPFilms has the only comprehensive technical service and applications support in the industry. Technical bulletins, web-based technical information, field installation support, training seminars, and personal 800-line service all provide extensive dealer assistance.
